If so, we need to estimate the amount funded to Neilson. Andrea thinks that this amount can be added to the suit counterclaim. [Perry Turnbull] Good question. Ron should be able to run a query for TC 12s to quickly analyze.</p> <p>2) I know that Perry is working with Ron to determine the amount of TC12s and TC60s applied to Neilson accounts [Perry Turnbull] Ron is working on data that will show the distribution of prin/interest/fees of each payment SFC received from a NEI borrower. The TC 12s and TC 60s are included in this . The attorneys and expert witness are looking for contemporaneous documents that could be footed the general ledger and prove that we moved the TC12 and TC60 amounts from the reserve and paid the investor. I know that aging reports were used to post the TC12s and TC60s. Chris looked for documents from 1995 and/or 1996 in storage and could not find any. Does anyone else know where we could look to find these reports/records? [Perry Turnbull] Unless the funding reports would help, which I don't think they will, I do not know where or if we ever kept any aging reports</p> <p>Thanks.</p>
